

Homework Menu – Spring 2

Choose at least 1 item from the homework menu to be completed before the end of our first term. You can bring the work into school or send in photos on class dojo.

In the last week, photos will be collated and presented to show off your child’s hard work. Dojos will also be awarded for efforts.

Design your own Olympic multi-event challenge in French.

Create a treasure hunt around your garden or local park using compass points and number of steps for direction.

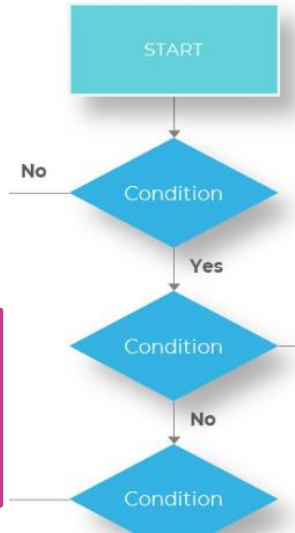

Where does our food go?

Research the major rivers and mountains of the UK, annotate a map to locate them and add key facts (ask your teacher for a blank map)

Create an acrostic poem to encourage people to look after their bodies and keep healthy.

Create a set of video instructions on how to carefully brush your teeth.

Create a flow chart to explain what happens to the food as it enters and leaves our body.

This can be drawn or using PowerPoint.

Health is important
 Eat healthy
 Always stay healthy
 Less sweet is very good
 Try eating healthy everyday
 Health is serious
